CPL
CHEMISTRY AND PHYSICS OF LIPIDS

Volume contents

Volume 88 (1997)

J.M. Holopainen, J.Y.A. Lehtonen, P.K.J. Kinnunen (Finland) *Lipid microdomains in dimyristoylphosphatidylcholine–ceramide liposomes* 1
K. Larsson (Sweden) *On periodic curvature and standing wave motions in cell membranes* 15
A.S. Goldstein, A.N. Lukyanov, P.A. Carlson, P. Yager, M.H. Gelb (USA) *Formation of high-axial-ratio-microstructures from natural and synthetic sphingolipids* 21
M.G.L. Elferink, J. van Breemen, W.N. Konings, A.J.M. Driessen, J. Wilschut (The Netherlands) *Slow fusion of liposomes composed of membrane-spanning lipids* 37
R. Koynova, B. Tenchov, G. Rapp (Bulgaria, Germany) *Mixing behavior of saturated short-chain phosphatidylcholines and fatty acids: Eutectic points, liquid and solid phase immiscibility, non-lamellar phases* 45
A. Minato, J. Yano, S. Ueno, K. Smith, K. Sato (Japan, UK) *FT–IR study on microscopic structures and conformations of POP–PPO and POP–OPO molecular compounds* 63
M. Wegener, R. Neubert, W. Rettig, S. Wartewig (Germany) *Structure of stratum corneum lipids characterized by FT-Raman spectroscopy and DSC. III. Mixtures of ceramides and cholesterol* 73

B. Karten, U. Beisiegel, G. Gercken, A. Kontush (Germany) *Mechanisms of lipid peroxidation in human blood plasma: a kinetic approach* 83
G. Cighetti, P. Allevi, S. Debiasi, R. Paroni (Italy) *Inhibition of in vitro lipid peroxidation by stable steroidic nitroxyl radicals* 97
R. Adlof (USA) *Preparation of methyl cis-9, trans-11- and trans-9, trans-11-octadecadienoate-17,17,18,18-d_4, two of the isomers of conjugated linoleic acid* 107

Abstracts from the 38th International Conference on the Biochemistry of Lipids, September 16–19, 1997, Assisi, Italy 113
